SUMMARY OF CHANGES

SECTION SF 30 - BLOCK 14 CONTINUATION PAGE (SF 30)

The following have been added by full text:

AMENDMENT 0002

1. **Question:** Drawing Sheet E-4 Requirements for 400 Hertz Converters and for 28 VDC Power Supply both require start up and training "one trip for seven days on site" for a total of fourteen days on site. There are two 400 hertz converters and two 28 volt dc power supplies which can be fully field tested and training conducted in a total of four days. Can this total fourteen day requirement be amended to read four days on site for field testing of the 400 hertz and 28 volt dc and training? Reason - Fourteen days is not required to complete the required testing and training however we must price this activity according to the bid documents. Changing to four days on site would result in a cost savings to the government.

Answer: Bid per the provided plans and specifications.

2. All other terms and conditions remain unchanged.
