

Connected Room

Lighting Controls

HOW CAN I PREPARE?

All hotels procuring or replacing lighting controls should only invest in Connected Room compatible light switches in preparation for future standards.

Only Motto by Hilton hotels are **required** to install Connected Room compatible light switches.

WHAT ARE MY OPTIONS?

The Connected Room team has certified one device:

- Leviton DL15S-1BZ

This document contains information on each of the Connected Room-certified light switch options. Note that Connected Room lighting controls are currently not compatible in guestrooms with master lighting controls.

Questions? Contact in_room_technology@hilton.com
