Louis Resko
6713 Netherlands Dr.
Wilmington, NC 28405

Dear Mr. Resko,

We are very impressed with the excellent job your crew has done, installing plumbing and electric services for our office unit. The schedule for the work was very tight, and was delayed due to an extended delivery of services by a different contractor, but you and your team brought the project right back on schedule - an amazing feat, considering all circumstances that were outside of your control. We have never had any other contractor who was able to accomplish what you did in spite of challenging conditions, and deliver on time with the absolute highest quality of service.

Your crews were faced with terrible work conditions due to torrential downpours and difficult terrain, along with issues created by previous contractors. We watched your employees work in extreme heat the first day, then in soaking wet conditions for 12 hours the second day – and they did this with remarkable professionalism and very positive attitudes – you and every single one of your employees.

Hats off to you, your crew, and T.A. Woods for going above and beyond. My thanks to you for making our project successful. T.A. Woods most definitely delivered cost effective services of the highest quality.

Best regards,

Kimberly Roane
Business Officer
New Hanover County
